**BLUE&me**™

# MESSAGE READER
# INSTALLATION

**ALFA ROMEO**

SERVICE

# INSTALLATION PROCEDURE

1. Enter the **Blue&Me™** portal from the official ALFA ROMEO web site and download the .zip file containing the Message Reader application package to be installed on **Blue&Me™**.

2. Open the .zip file downloaded from the **Blue&Me™** portal, you are recommended to extract it to a dedicated folder (ex.: c:\Blue&Me).

3. From extracted files, copy into a previously formatted USB storage device the following files:
   - ❒ **install.inf**
   - ❒ **SMS_Reader.ARM920.CAB**

4. The USB storage device will therefore contain these two files:
   - ❒ **install.inf**
   - ❒ **SMS_Reader.ARM920.CAB**

5. Connect the USB storage device to the **Blue&Me™** USB port in the car (glove compartment, see the picture).

6. Fit the electronic key into the ignition device.

7. **Blue&Me™** will show on the instrument panel display the message "**UPDATE IN PROGRESS**" and it will say "**update started**" (failing this procedure, remove the electronic key from the ignition device and then refit it).

**WARNING** *No control button on the steering wheel shall be pressed during the update procedure.*

8. When update is completed, **Blue&Me™** will show on the instrument panel display the message "**UPDATE COMPLETE**" and it will say "**update complete, please remove the USB memory**".

9. Press button 📞 and then use buttons ▲/▼ to find the menu option "**MESSAGE READER**" in the **Blue&Me™** Main Menu.

**Repeat the above procedure right from the start if the option "MESSAGE READER" is not present in the Blue&Me™ Main Menu (performed procedure was unsuccessful).**
