WHAT CAN YOU DO WITH BLUE&ME™?

- Make and receive calls via **Bluetooth®** using your mobile phone with this function.
- Display the names and numbers in your phonebook on the instrument panel display.
- Use voice commands to call one of the names or numbers in the phonebook without taking your hands off the steering wheel.
- Play MP3, WMA, AAC, M4A, MP4 and WAV audio files stored on a USB device (DRM-free).

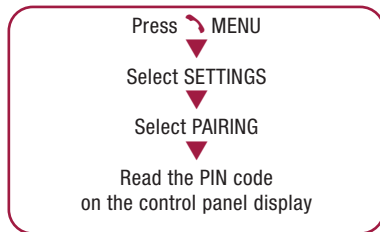

USEFUL SUGGESTIONS

For more information or for troubleshooting any problems, consult the **Blue&Me™** Owner Handbook, visit the dedicated **Blue&Me™** area on the website www.lancia.com or contact customer services on the freephone number **00800.526242.00**.

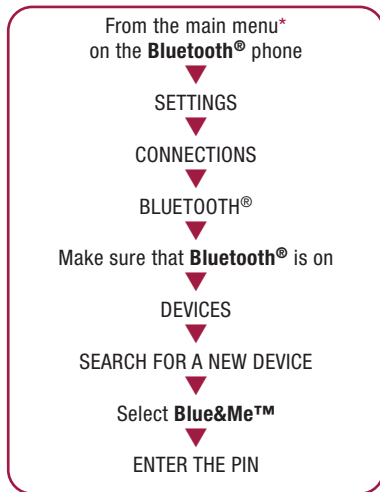

Blue&Me™ makes an extensive range of functions available, however not all mobile phones support them fully. To consult the list of mobile phones and functions supported consult the dedicated website www.lancia.com, **Blue&Me™** section or customer services on 00800.526242.00. Here you can also find: a guide to registering your mobile phone, the files for the 10 voice recognition languages available that can be downloaded, as an alternative, onto **Blue&Me™** (Italian, French, English, German, Spanish, Portuguese, Dutch, Polish, Brazilian, Turkish).

SETTINGS: BLUE&ME™ AND YOUR MOBILE PHONE

ACTIONS ON THE Blue&Me™ SYSTEM

ACTIONS ON MOBILE PHONES WITH Bluetooth®

NOTE: For safety reasons the mobile phone pairing operation is only allowed when the car is stationary.

* This pairing procedure is given purely by way of example and may vary depending on the make or model of the mobile phone with Bluetooth® technology. If carried out correctly, Blue&Me™ will confirm the pairing, welcome you and ask if you wish to download the phonebook. This operation can only be carried out with mobile phones that support this function.

Music is not downloaded to the car but can be managed with the steering wheel controls and vocally.

For personalised listening, check the music playback mode from the “MEDIA PLAYER” menu, by scrolling to “USB SETTINGS”.

Autoplay: the files on the USB device are played automatically when it is inserted.

Shuffle: the tracks are played in a random order.

Track Loop: the selected track is repeated.

Or, using voice interaction: Press  and say “PLAY”.

To choose music, select “MEDIA PLAYER”, “USB ADVANCED OPTIONS” and then “FOLDERS”, “ARTISTS”, “ALBUMS” or “GENRES” or “PLAYLIST”; the name of the folder, the singer, the album, the genre, the playlist and the title of the song can only be selected using the controls on the steering wheel.

The first part of the selection can also be carried out through voice interaction.

You cannot request the name of the singer or the song vocally.

PAUSE: Press  to pause the track and press it again to resume.

To stop playing the track, press  and say the word “STOP”; press again and say the word “PLAY” to resume.

PREVIOUS OR NEXT TRACK: you can switch from one track to another using the buttons  (steering wheel controls) or the buttons  (radio).

NOTE: if playback does not start, with the player inserted press , say “STOP”, press  again and say “PLAY”.

HOW TO MANAGE AUDIO FILES FROM iPod DEVICES

What you can do

- Listen to tracks in digital quality: AAC, M4A, MP4, MP3, WMA and WAV
- Select tracks (by artist, album, genre, etc.) through voice commands or by using the controls on the steering wheel
- Show information on the radio display about the track being played (song title, singer, etc.) on the instrument panel
- Recharge iPod using USB port

What can I not do?

Select tracks by Folder, Artist, Album, Genre and Playlist through voice commands.

WHAT SHOULD I DO BEFORE STARTING TO USE BLUE&ME™?

For correct use, first of all you should configure the system as follows:

- Activate the mobile phone in **Bluetooth®** mode.
- Pair the mobile phone with **Blue&Me™** (this is only necessary the first time).
- Download the phonebook (according to the methods compatible with the telephone, see compatibility on the website at www.lancia.com).
- Keep the mobile phone in **Bluetooth®** mode, so that **Blue&Me™** will recognise it each time you get into your car.
- Insert your multimedia player, USB stick or iPod in the special USB port for listening to your music.

To listen to the music on your iPod or iPhone:

Load your favourite tracks onto your device using the management software of your iPod/iPhone.

These operations allow the tracks to be listened to in digital quality.

ESC

- Ends a voice interaction.
- Interrupts the reading of an SMS text message (compatible telephones only).
- Exits from a submenu and returns to the previous menu item.
- Deactivates the microphone during a conversation.
- Pauses and resumes media player during play.

VOICE INTERACTION

Short press

- Activates voice interaction.
- Say "HELP" to get help within any menu option.
- Interrupts a voice announcement to make another one.

Long press

- Repeats the last sentence said by **Blue&Me™**.

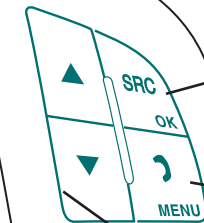

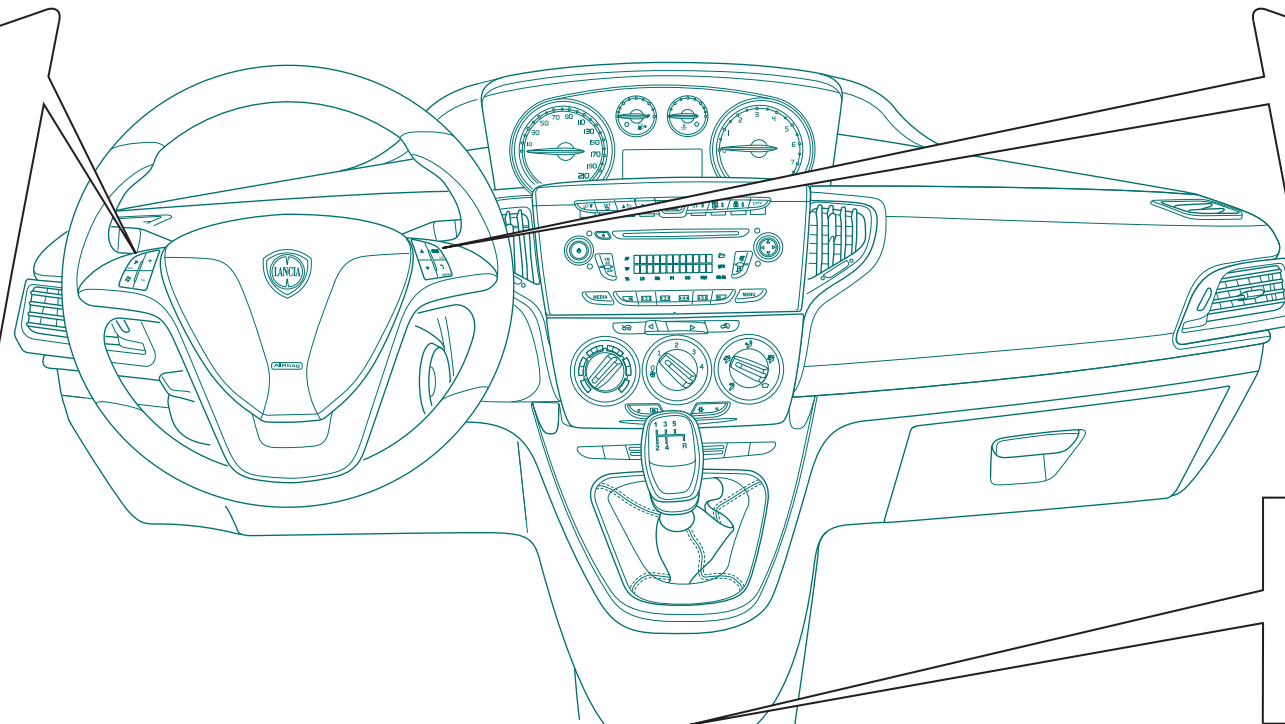

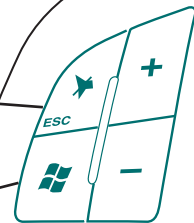

HOW TO DIAL A NUMBER USING VOICE COMMANDS

Press and say "CALL": **Blue&Me™** will ask you for "THE NUMBER, PLEASE": say the number, digit by digit.

If one of the digits has not been received correctly, say "DELETE" otherwise confirm by saying "YES".

CALL ONE OF THE NAMES IN THE PHONEBOOK USING VOICE COMMANDS (if downloaded)

Press and say "CALL" followed by the name (as written in the mobile phone).

SRC/OK

- Confirms the **Blue&Me™** menu item.
- Transfers the conversation from **Blue&Me™** to the mobile phone and vice versa.
- Selects audio source: radio, CD, CD Changer, MP3 player.
- Selects the SMS message displayed.

MENU

Short press

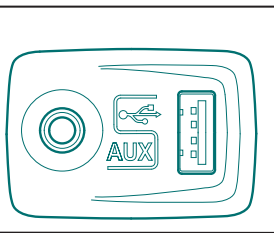

- Opens the main **Blue&Me™** menu.
- Accepts an incoming call.
- Switches between two live calls (call waiting).

Long press

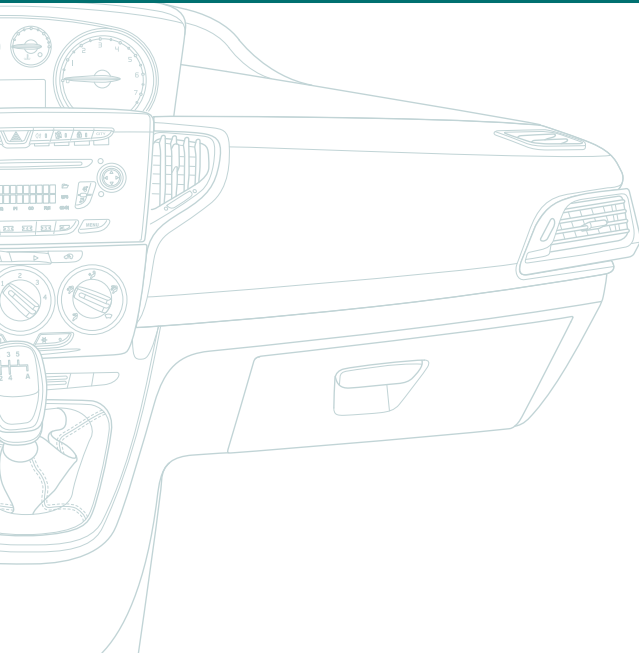

- Refuses an incoming call.
- End a call in progress.

- Scroll the menu items.
- Select previous/next track.
- Scroll messages received and in the list.

USB PORT – AUX SOCKET (for versions/markets, where provided)
To connect a media player, memory stick, iPod, iPhone.

WHAT OTHER FUNCTIONS DOES BLUE&ME™ OFFER?

SMS MESSAGE READER

The incoming message is read by the system speech synthesiser, including abbreviations and smileys.

When a new SMS text message is received whilst driving, **Blue&Me™** automatically notifies you according to the mode set:

“VIS.+ACOUST”; “VIS. SIGNAL”; “READER OFF”. If “READER OFF” is selected, the message reader will be disabled to guarantee your privacy.

To listen to the last message received, using manual interaction via the “MESS. READER” menu, scroll through the menu until “READ LAST” or, with voice interaction:

Press and say “MESSAGE READER”, then “READ LAST”

READING OF PREVIOUS/NEXT MESSAGE

To skip to the next message manually, select or, using voice interaction: press and say “PREVIOUS” or “NEXT”.

N.B.: Not all mobile phones support the transfer of SMS text messages via **Bluetooth®**. Consult the website www.lancia.com for the list of compatible phones.

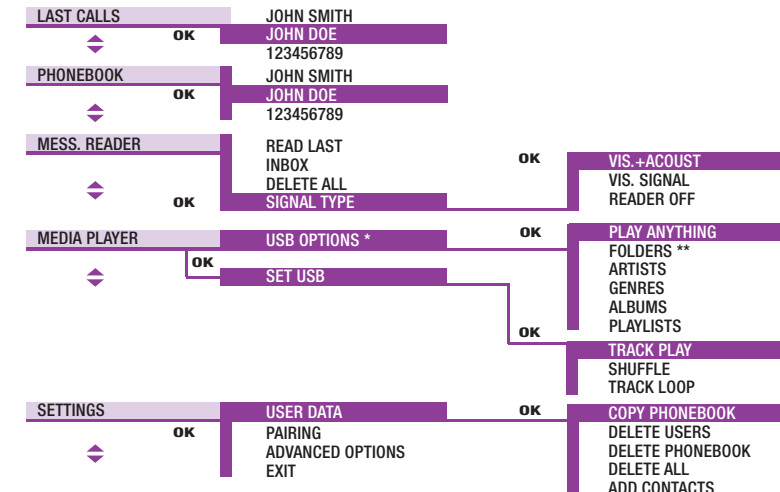

MEDIA PLAYER

Insert the multimedia player, iPod or USB memory stick in the dedicated USB port to play the audio files through the car speakers.

It will be possible to listen to MP3, WMA, AAC, WAV audio files that are NOT covered by digital rights.

THE MAIN BLUE&ME™ MENU

You can activate the **Blue&Me™** menu either from the steering wheel controls by pressing the MENU button or vocally, by pressing the hands-free button and saying the function that you want to activate out loud. Follow the order given below:

* If the device is switched on

** Not with iPod

WHAT ARE THE CONTROLS ON THE STEERING WHEEL FOR?
